

FOR VANS, PANEL VANS, AND STORAGE CONTAINERS

Our DI141 DISKUS® Integral hasp is a security hasp with an integrated Diskus® lock and fits most common transport and storage containers.

Versatile double protection: With our Diskus® Integral hasps, you can secure doors and gates without rebates. Our Diskus® Integral hasps were specially designed to secure vehicle panel and sliding doors. However, they are just as good for protecting barns and containers from being broken open. The integrated Diskus® lock of 70 millimeters is protected all around against breaking open and against splash water by a robust metal lock casing. Frontal cylinder access enables convenient operation.

Technologies

- Universal hasp with integrated Diskus® padlock (70 mm) for doors and gates without rebate
- Easy to operate with one hand due to handy frontal cylinder access
- Extremely corrosion resistant cylinder
- Solid metal locking case almost completely prevents successful attacks on the integrated padlock
- Fixing material (screws, drilling template and spacers up to 5 mm height levelling) and Diskus® lock are included
- Extremely corrosion resistant

Operation and use

- Universal hasp with integrated Diskus® padlock to secure doors and gates without rebate
- Will fit on most common transport and storage containers
- Also ideal for use on double wing doors (transporters, box waggons)

Variants

- Colours: white, black
- Individually boxed without lock (if need be without screws)
- Material to level differences of up to 5 mm is included

Technical data - 141/200 black
