

SecLight TL-530

COMPACT SAFETY FLASHLIGHT

Our TL-530 flashlight provides light in the dark with high-quality LED lights

Our TL-530 flashlight ensures that you can find your way in the dark - for example in your basement workshop or garage. Practical: It can be set down anywhere without rolling off the table, hood, or other smooth surfaces due to its cuboid shaft. Thanks to the holster, you can also attach it to your belt and have your hands free for other craft activities. Or you can optionally hang the flashlight on a hook with the loop on the shaft.
