

GO FOR THE SQUARE!

Our 110 hasp with hinge can be used wherever you want to secure something by its corner - such as boxes or chests.

For boxes, cabinets, chests, garden boxes, etc., on which a hasp has to be attached around a corner, our 110 hinged hasp works well. It has a hardened steel staple, which makes it much more difficult to hit or break open. The screws are concealed after mounting, and the hinge pins are protected from being driven out. Because the same is true of every security solution: The longer it takes a thief to break something open, the better the chances are that they will give up and move on.

Technologies

- Tough steel construction
- Hinge pins protected against attack
- Hardened staple
- Hidden screws

Operation and use

- Suitable for doors not closing flush, i.e. door leaf and door frame are not level
- To be used with a padlock

Variants

- Sizes: 155, 195 and 230 mm
- 155: 2 links
- 195: 3 links
- 230: 4 links

Technical data - 110/155

Hole Diameter c	12 mm
Security Level Home Security	8
Weight [g]	264 g
Width a	155 mm
Width b	45 mm
