

WITH STAINLESS STEEL BOLT

Additional window security lock with stainless steel bolt for sliding windows.

Your sliding windows are certainly practical. They are easy to open and close. But they also have to be secure. This additional security lock for sliding windows provides more security. A 24 millimetre long stainless steel bolt and a robust zinc die-cast housing provide particularly strong security. It can be locked with a key. Mounting material is included in the scope of delivery. The security lock is suitable for windows made of plastic, wood or aluminium.
