

CLOSES FIRE DOORS INDEPENDENTLY

Door closer for house, flat and fire doors for quiet and safe closing.

Safety-relevant for fire doors: With this door closer you can close house, flat and fire doors safely and quietly. The latter, in particular, must always be self-closing. This door closer closes with a closing speed that is continuously adjustable by means of a valve. It is suitable for doors with a width of up to 1.40 metres and has a self-regulating hydraulic opening absorber. In combination with the additionally available DIN plate, this door opener is also suitable for fire doors.
