

DVR/PTZ network controller

Art.-Nr. TVAC26030

Seite 1 von 2

Help yourself! Controllable video surveillance for analogue cameras. This ergonomically designed and robustly made control panel enables simple control of up to 255 motor domes via RS-485 or directly via network. The integrated LCD display enables you to monitor each of your control steps. One special feature is the additional option to directly control several recorders. Direct access to the OSD of the connected dome is also possible.

Technologies

- 3D joystick with zoom in/out function
- Direct control of a DVR/NVR possible
- Direct access to the OSD of the dome camera possible
- LCD display for viewing
- RS485 interface / RJ45 interface
