

VdS Battery, 12 V, 18 Ah

Art.-Nr. BT2190

Seite 1 von 2

The VdS-certified 12 V batteries can be used wherever devices need to be supplied with voltage immediately after a power failure. Due to their long service life and high reliability, they are particularly suitable for use in alarm systems. These batteries do not require maintenance during their entire service life. Thanks to their particularly compact design, the batteries are absolutely leak-proof. A special calcium alloy of the highest purity ensures a long service life. Depending on the average depth of discharge, you can charge the batteries up to 1000 times. All batteries are VdS-certified. They differ in size, weight and capacity.

Technologies

- High-quality lead-gel battery
- Up to 1,000 charging/discharge cycles

Technical data - VdS Battery, 12 V, 18 Ah

Battery type	Lead gel
Capacity	18
Certifications	VdS
Charging cycles	up to 1000
DC power supply	12 V
Height	168 mm
Length	182 mm
Max. operating temperature	50 °C
Min. operating temperature	-15 °C
Net weight	5.737 kg
PSTI conformity needed	No
Product group	Accessories
VdS class	Other
