

KEYLESS SECURITY

It is not uncommon for valuables to be found behind cellar doors, garden gates or in sheds. The versatile Diskus® Combo 29/70 is ideal for keeping them safe.

Worrying about losing keys is now a thing of the past: the padlock can be opened with an individually adjustable 4-digit numerical code. The dials are so tightly fitted that no forcing tool can fit between them, and the round shape in combination with the narrow shackle opening makes it almost impossible for thieves to find a surface to attack with burglary tools.

Thanks to the robust stainless steel housing, the Diskus® Combo 29/70 is not a "fair-weather lock" - it defies cold, rain and snow and therefore offers good security for outdoor and indoor use.

Tip: The hasp 140 is the perfect complement to the Diskus®.

Technologies

- Individually adjustable 4-digit code
- Shackle made from hardened steel
- Robust stainless steel housing
- Round shape plus narrow shackle opening makes access with forcing tools difficult
- Additional saw protection, as there is hardly any space to reach the shackle with sawing tools
- Special scanning protection for increased security against unauthorised acquisition of the numerical code by tampering with the mechanism

- Rounded surfaces contribute to convenient handling
- Three holes on the underside of the lock for water drainage
- Designed in Germany

Operation and use

- Protection of items of high value and with a very high risk of theft
- For securing doors, gates, cabinets, toolboxes, cellar windows, sheds, switchgear, barriers, etc.
- Suitable for indoor and outdoor use (not suitable for marine use)
- Ideal in combination with ABUS Diskus® hasp 140, preventing access to the shackle with burglary tools

Technical data - Diskus® Combo 29/70

Depth e	23,3 mm
Height f	70 mm
Horizontal clearance b	21,6 mm
Keyed alike	No
Security Level Home Security	6
Shackle diameter d	9,5 mm
Vertical clearance c	16,1 mm
Weight	310 g
Width a	70 mm
colour	stainless steel
EAN	4003318409059
