

HARD SHELL AND HARD CORE

With the Steel-O-Flex™ 950, treat your high-quality bicycle to motorbike lock security.

25mm steel sleeves are normally reserved for cable locks to secure scooters and light motorbikes. With the Steel-O-Flex™ 950, you are now playing in the same league when it comes to securing your bicycle. Specially hardened steel of that thickness is always a difficult target for thieves.

The built-in ABUS Plus cylinder is also protected against tampering such as picking. And to make sure you can get the most out of your Steel-O-Flex™ 950, the keyhole is concealed by a manual cover to protect it against dirt and corrosion.

Technologies

- Overlapping steel sleeves with a diameter of 25 mm protect the steel cable inside
- PVC casing to prevent damage to paintwork
- The steel sleeves and the structural parts of the locking mechanism are manufactured using specially hardened steel
- ABUS Plus cylinder for maximum protection against attempted manipulation, e.g. picking
- Two keys included in the scope of delivery
- Manual cover to protect the keyhole from dirt and corrosion
- ABUS Code Card for additional or replacement keys

Operation and use

Steel-0-Flex™ 950/100

- Outstanding protection in situations where there is a medium risk of theft
- Recommended for securing scooters
- The longer the chain, the easier it is to lock the bicycle to a fixed object

Tips

- With its steel sleeves, the Steel-0-Flex™ locks offer a considerably greater degree of security with much higher flexibility than simple cable locks

Technical data - Steel-0-Flex™ 950/100

Length	100 cm
Locking type	key
Weight	1540 g
alarm function	No
color of facets	black
design color	black
diameter	25 mm
type of cylinder	Plus cylinder
EAN	4003318257155
