CATCHES THE EYE

Attract attention before something happens: The warning sign alerts road users to children playing outside from afar.

Whether in yards or on driveways, the warning sign is versatile and protects your children when running around or playing ball in front of the house. The bright yellow colour, familiar from high-visibility safety vests, and the reflective strips ensure optimum visibility, even at dusk.

The "Caution" warning can be found on all four sides of the warning sign - in German, English, French and Dutch. Thanks to the practical pop-up system, the warning sign unfolds by itself and is ready for use in no time at all. After use, whether at home or on holiday, it can be easily folded up and stowed away in your rucksack to save space. To prevent the sign from being blown away by the wind, a polyester bag is included in the scope of delivery, which can be filled with sand or small stones. Alternatively, the warning sign can also be weighted down with a large stone.

Technologies

- Visible even from a great distance: the bright yellow colour ensures visibility
- Practical reflective strips: increase visibility at dusk
- Easy to set up thanks to the pop-up system: warning sign is automatically set up when opened
- Space-saving folding design: ideal for transport in a rucksack
- Warning in four languages: one language is shown on each side of the warning sign (German, English, French, Dutch)
- Easy access: the zip at the top makes it easy to weigh the sign down
- Warning sign dimensions: Height: approx. 64 cm, standing area: approx. 50 x 50 cm
