

Window catch JC7100 NINO

Seite 1 von 1

FIXING THE WINDOW IN THE TILTED POSITION

Thanks to the NINO window catch, a window stays open in the event of a gust of wind!

Prevent trapped fingers! You would like to put a window on tilt, but you can't keep an eye on it all the time at the moment? Simply clamp our NINO window catch between them - and the window remains in the position in which you tilted it.

Technologies

- Included in the scope of delivery: Fitting with 3M sticky label and (optional) screws

Operation and use

- Prevents wind from slamming the window shut
- For tilt/turn windows, balcony/patio doors (depending on indoor or outdoor opening) and double casement windows without central bar

Technical data - Window catch JC7100 NINO
