

SAFE AND QUIET

Security for your home: low-noise security door bar with door double cylinder.

With this security door bar you can reliably protect your wooden, metal and plastic doors with widths of 73.5 to 103 centimetres against break-in attempts. The closing direction of the bolt is suitable for DIN-left and DIN-right doors. Its special drive components make it particularly quiet. The scope of delivery includes an ABUS EC550 cylinder.

Technologies

- Secures the door over the whole width
- Strong wall anchor: ensures maximum strength against physical attack
- For door widths from 735 - 1 030 mm
- Locks with two turns
- Cylinder can be exchanged easily to integrate the lock into master keyed systems
- ABUS cylinder EC550 inclusive (standard)
- Significant noise reduction by special drive components
- Fitting instructions and fitting materials included
- Incl. three keys

Operation and use

- For all doors made of wood, metal and PVC
- To be locked with a key from both inside and outside
- Can be used for doors DIN R/DIN L
- Suitable for outward opening doors using accessory PA 1018
- Can be combined keyed alike

Variants

- Colors: Brown, white
- Wall anchoring PWA2700 W for ideal locking into the wall
- Also available without a cylinder
