

Plug-in Power Supply "International"

Art.-Nr. TVAC35001

Seite 1 von 1

The plug-in power supply International (230 V AC / 12 V DC, 1.5 A) supplies electricity to your video components. If you want to install mobile video surveillance abroad, e.g. when on holiday or attending a trade fair, you need a flexible power supply. In this case, the plug-in power supply International with the 3 major plug variants is the right choice for you.

Technologies

- Flexible switching power supply for international use
- 3 different plug adapters (EU, AUS, UK)
- Output voltage 12 V DC with 1.5 A

Technical data - Plug-in Power Supply "International"

Dimensions	(W x H x D) 43.5 x 74.0 x 35.5 mm
Height	74 mm
Input voltage AC	100 - 240 V
Length	35.5 mm
Max. Operating temperature	40 °C
Min. operating temperature	0 °C
Net weight	0.166 kg
Output voltage DC	12 V
PSTI conformity needed	No
Product group	Accessories
Rated current	1,500 mA
WEEE group	09
width	43.5 mm
