

# Mini clip built-in power supply unit 5V / 2A

Art.-Nr. TVAC35210

Seite 1 von 1

The stabilised mini clip built-in power supply unit (230 V AC) is used for the power supply of your video components. The enhanced version with a lever spring clamp means that quick installation is possible without the need for a tool or an additional clamp. Its compact dimensions mean that it is especially suitable for use as a flush mounted power supply for installation in a 55 mm flush socket and anywhere there is limited space available for the power supply. Different variants are available.

## Technologies

- Quick installation: lever spring clamp means tool is not required
- Output voltage: different variants available

## Technical data - Mini clip built-in power supply unit 5V / 2A

|                            |                    |
|----------------------------|--------------------|
| Connection type            | Clamp              |
| Dimensions                 | (Ø x H) 53 x 27 mm |
| Input voltage AC           | 100 - 230 V        |
| Max. Operating temperature | 50 °C              |
| Min. operating temperature | -10 °C             |
| Net weight                 | 0.045 kg           |
| Output voltage DC          | 5 V                |
| PSTI conformity needed     | No                 |
| Product group              | Accessories        |
| Rated current              | 2,000 mA           |
| WEEE group                 | 09                 |
