

Reflective stickers Spector(-E)

Seite 1 von 2

MORE VISIBILITY ON THE CONSTRUCTION SITE

Our reflective stickers for the Spector and Spector-E safety helmets are the ideal solution for increasing your visibility and safety in the dark.

Whether on construction sites, when climbing at height or around construction site vehicles - these stickers ensure that workers are more visible and thus help to prevent accidents.

The reflective, self-adhesive stickers are easy to apply and offer immediate improvements in terms of safety. They are robust and resistant to the weather, making them suitable for long-term outdoor use. Thanks to their high reflective power, the stickers ensure that you are clearly visible even in poor lighting conditions.

Technologies

- High visibility and reflection
- Self-adhesive

Operation and use

- Suitable for the Spector and Spector-E safety helmets
- Reflective stickers increase the wearer's visibility and thus reduce the risk of accidents
