

Wall Mount Mini Dome Black

Art.-Nr. TVAC32420X

Seite 1 von 1

The wall bracket is an optional accessory for IP Mini Dome cameras. It is used to carry out professional wall mounting of the Dome Camera in a horizontal position. The sturdy aluminium construction makes it possible for cabling to be both protected and laid internally, and is suitable both for indoor and outdoor use.

Technologies

- Internal cable routing possible
- Sturdy aluminium construction for indoors and outdoors
- In different colours
