BORDO™ Big 6000/120 black + Bag ST

STABILITY AND FLEXIBILITY IN A LARGER SIZE

Easily secure one or several bicycles to fixed objects.

30cm of extra length, more flexibility: The BORDO™ Big 6000 Folding Lock makes it possible to lock one or several bicycles together even more conveniently. You are still getting the typical benefits of the ABUS classic: A perfect combination of durability, flexibility and minimal transport dimensions. You can count on the picking-resistant ABUS Plus disc cylinder and the 5mm thick foldable bars, which are made of specially hardened steel and are connected with special rivets. A soft two-component coating prevents the lock from damaging the paintwork on your bicycle. Extremely convenient: The BORDO™ Big 6000 Folding Lock is supplied with a coded key - this means that the lock can be ordered keyed alike with other ABUS locks.

Technologies

- 5 mm thick bars, extra-soft two-component coating to prevent damage to paintwork
- The bars and body are made of specially hardened steel
- Bars are linked with special rivets
- ABUS Plus cylinder for a high level of protection against tampering, e.g. picking

Operation and use

- Great protection for when there is a medium risk of theft
- Recommended for securing good-quality bicycles

Tips

- This lock can be ordered with other keyed-alike locks, all of which are operated using the same key or locking
