

VERY HIGH RESISTANCE

Homeowners can protect themselves against forced entry attempts with this VdS-certified security door bar.

Small rod, big effect: With the armoured security door bar you secure your wooden, metal and plastic doors reliably against burglars. The bolt is fitted across the entire width of a door from 73.5 to 103 centimetres. It grips firmly into two lock casings that are anchored into the masonry. Due to its special drive mechanism, the security door bar can be used quietly. Fixing material and three keys are included in the scope of delivery.

Technologies

- Secures the door over the whole width
- Strong wall anchor: ensures maximum strength against physical attack
- For door widths from 735 - 1 030 mm
- Locks with two turns
