FOR EVERY ADVENTURE

The “Made in Italy” ABUS helmet family is growing. The PowerDome MIPS comes from the same ABUS-owned Italian production facility where our other top road helmets are produced.

The most striking feature of the PowerDome MIPS is its weight, coming in at 260g for a size medium. Fit is easily dialed in with the Zoom Ace adjustment system, and the 10 air inlets and 7 air outlets ensure you keep cool when climbing a mountain pass or riding open gravel roads on the hottest of days. The sophisticated ventilation is also supplemented by a sleek air scoop on the helmet: modeled after the PowerDome of high-performance cars. On a gravel adventure, fighting against the wind or a casual ride with friends, the PowerDome MIPS brings the Italian lifestyle to every ride. This keeps the focus on having fun on two wheels. No rules, no dress code, no pressure to perform. With this helmet, the journey becomes the destination!

Technologies

- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Mips layer: thin plastic shell located between the inner padding and the energy-absorbing shell of the helmet to counteract rotational forces in the event of a fall
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size
- Stitched straps: for optimum aerodynamics, the straps are sewn and therefore do not require any strap dividers – this means they fit particularly snugly and do not flap while riding
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro

PowerDome MIPS flip flop purple M

Seite 2 von 2

- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Push-in buckle: for safe and practical handling, the straps are fitted with a classic chin lock (three-pronged connection) for opening and closing
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection

Technical data - PowerDome MIPS flip flop purple M

Chin buckle	Push-in buckle
Finish	shiny
Forced Air Cooling	No
Head size	55-58 cm
Headring	Half ring
Helmet type	Road helmet, Gravel helmet
Light	No
Lower edge	No
Mips	Yes
Peak	No
