FOR STEEP TRAILS AND BIG LINES

The CliffHanger MIPS is the flagship half-shell helmet in the ABUS lineup. When riding up and down steep trails, the CliffHanger MIPS offers excellent ventilation and is packed full of features to improve the riding experience.

Lighter, better ventilated and no-fuss TriVider helmet straps - the CliffHanger scores. The ZoomAce MTB adjustment system is adjustable vertically and horizontally, ensuring that the helmet is comfortable and sits firmly on the head, no matter how rowdy the terrain gets. The inner EPS is formed inside a three-part outer shell, making a lightweight and rugged helmet. The inclusion of MIPS adds an additional layer of protection in the event of a crash. .

With the CliffHanger, we have created a helmet that knows no limits.

Technologies

- Lower edge protection: polycarbonate (PC) outer shell covers the lower edge of the helmet and protects against scratches, impacts and signs of wear and tear
- Ponytail Fit: thanks to the opening in the height-adjustable adjustment system, the helmet is also suitable for long hairstyles such as ponytails, buns, or braids
- Mips layer: thin plastic shell located between the inner padding and the energy-absorbing shell of the helmet to counteract rotational forces in the event of a fall
- Height-adjustable peak: the position of the peak can be adjusted thanks to locking positions to provide optimum protection from hanging branches and sunlight
- Zoom™ Spin adjustment system: rotary wheel at the back of the head for individual adjustment of the helmet to the head size

Seite 2 von 2

- Trivider™: particularly flat divider with fixed positioning of the straps to prevent unintentional adjustment
- Comfort Pads: soft padded inserts for optimum comfort, attached to the helmet with Velcro
- Removable, washable pads: can be removed and washed by hand or replaced if necessary
- Magnetic buckle: the straps are fitted with a high-quality, magnetic FIDLOCK buckle to enable the chin buckle to be opened with one hand, even when wearing gloves
- In-mould process: production process in which the inner cushioning material made of expanded polystyrene (EPS) is foamed directly into the outer shell made of polycarbonate (PC) – this creates a durable and robust connection

Technical data - CliffHanger MIPS velvet black M

Chin buckle	Magnetic buckle
Finish	matt
Forced Air Cooling	No
Head size	54-58 cm
Headring	Half ring
Helmet type	MTB helmet
Light	No
Lower edge	Yes
Mips	Yes
Peak	height adjustable peak
Ponytail Fit	Yes
Removable pads	Yes
Size	M
Suitable for	Adults
Washable pads	Yes
Weight [g]	350 g
color of facets	black
design color	velvet black
EAN	4003318692680
