

WITH REVERSIBLE KEY

The brass padlock 75 has a reversible key.

Padlock 75 is an excellent choice for securing doors, gates, cabinets, lockers, toolboxes, basements, sheds, switchgear, and more, offering robust protection against theft. Crafted with a solid brass lock body and a hardened steel shackle featuring NANO PROTECT™ corrosion protection, this padlock ensures durability and reliability. The high-precision locking mechanism operates with a reversible key for ease of use. The 75IB variant is weatherproof, making it an ideal solution for protecting your belongings in sea and port areas.

Technologies

- Solid lock body made from brass
- Hardened steel shackle with NANO PROTECT™ plating for extreme corrosion resistance
- Shackle made from hardened steel with NANO PROTECT™ plating
- High precision reversible keyway with up to 150 000 key differs
- Double bolted
- Self-locking: locking without key by pushing down the shackle
- Paracentric keyway for increased protection against manipulation
- Inner components made from non-corrosive materials
- 75IB/40 and 75IB/50: key-retaining
