

TRUST THE ORIGINAL

Our Diskus® 25 padlock has a reversible key cylinder.

Introducing the Diskus® 25 Padlock: Your Ultimate Guardian for Stored Valuables.

Whether safeguarding belongings within trucks, vans, basements, or behind factory gates, the Diskus® 25 padlock is your premium choice. Crafted entirely from stainless steel, both internally and externally, it ensures durability and longevity. Its shackle, constructed from specially hardened steel, offers exceptional resistance to picking attempts.

With meticulous attention to detail, the Diskus® 26 features a hand-welded seam, joining its two stainless steel housing pieces. This unique construction enhances security by preventing easy separation of the halves, solidifying protection for your valuables. Originating from our German production facility, the Diskus® 25 guarantees robust performance.

Unlocking convenience is achieved through the reversible key mechanism, ensuring hassle-free operation. Regardless of insertion orientation, the reversible key consistently fits flawlessly. Your purchase includes five reversible keys, encapsulating a complete security solution.

Technologies

- High precision reversible key with 8,000 key differs
- Coded keys, spare keys can only be ordered with the code
- Stainless steel - inside and outside

- Hardened steel shackle
