

TRUST THE PROFESSIONALS

Our GRANIT™ padlock is the lock for the highest security demands and is made in Germany.

Protect your highly valuable assets from high-risk theft with the Granit 37/55 padlock from our GRANIT™ collection. This high-security lock is your dependable choice for securing halls, doors, gates, containers, and trucks. It complies with stringent insurance company requirements and is crafted to meet European standard EN 12320.

Crafted with a special coating for enhanced corrosion resistance, the lock features a lock body and shackle made from hardened special steel. Inside, an ABUS Plus disc cylinder provides top-notch security.

You have two options for key management: choose between a code card or a security card. With the code card, you only need the card number to make keys at a retailer. Opt for the security card, and you retain control—original keys can only be duplicated by presenting the enclosed security card at a licensed ABUS dealer.

For an extra layer of security, consider pairing this padlock with our Hasp 130 for enhanced protection.

Technologies

- ABUS-Plus disc cylinder: highest protection against manipulation
- Body and shackle made from hardened alloy steel
- Black Granit coating for even more corrosion resistance
- SZP: comes with security card to protect against unauthorized key duplicates
- RK: cylinder can be re-keyed to match an existing ABUS-Plus key

- 2 keys

Use and application

- To secure valuables/goods of great value or at a very high risk of theft
- Meets special requirements of insurance companies
- Certified and approved padlock
- To secure e.g. warehouses, industrial sites, factory gates, containers and lorries
- Ideal in combination with ABUS high-security hasp No. 130
