

P625 Control Panel Lockout Bag Big

Seite 1 von 2

SECURE CONTROL PANELS, CONTROLS, AND PLUGS AGAINST UNAUTHORIZED ACCESS

Vibrant red hue paired with a spacious drawstring bag crafted from a lightweight and resilient material.

The distinctive red signal of the P625 console lockout device acts as a visual deterrent against accidental or unauthorized access. Additionally, the drawstring bag is constructed from a durable yet lightweight material, sealed securely with a retaining strap that can be locked using a padlock.

Technologies

- Made from light yet durable polyester
- Closable thanks to a retaining strap
- Retaining strap with five opposing metal eyelets for flexible closure

Use and application

- Protection of large plugs and consoles with a padlock or a hasp as a multiplier.
- Flexible, water-resistant and highly-resistant to heat and soiling
- Easy handling

Tips

- Despite this, if there should be a risk of tampering, control consoles can additionally be concealed in a standard plastic pipe to prevent switches and knobs from being touched.

Variants

- Dimensions: 250 x 450
